Attention.

Columbia, Ky., April 14th, 1913.

I hate to have to call the attention of the citizens of our town to the unlawful habit that some of our people have of throwing their dead fowls on to their neighbors lots. There are but two lawful ways of disposing of dead chickens, one is to bury, the other to burn them. One woman who complained to me of her neighbor throwing dead chickens on her lot said that she would willingly give them the ground to bury their dead chickens in but she did not want them out on her lots to putrify and make maggots for her chickens to eat, and thereby become diseased. Maggots in dead fowls eaten by chickens give them what is called "limber neck," a disease nearly always fatal. Throwing dead chickens out on the commons is an indictable offense, and anyone guilty of it should take warning.

By order of the Board of Health,
U. L. Taylor, Health Officer.

Attention is called to the statement of the Bank of Columbia, published on our first page. It shows a considerable increase over the last report. The officers would be glad if you would read it carefully.

**IHC Wagons Are Tough**

Did you ever notice when one of the wheels of your loaded wagon dropped into a rut or bumped over a stone how the seat springs gave and rebounded, almost throwing you off? That is an indication of the shock and strain that the rigid spokes and axles have to stand whenever the wagon is traveling over a rough road or through a field. IHC wagons

**Weber New Bettendorf
Columbus or Steel King**

take these stresses and strains as a matter of course. From neckyoke to tail board they are built of selected, air-dried lumber, strong and tough, bending to strains but coming back as straight and true as ever when the load is removed. Besides being tough, IHC wagons are light running. The wheels have just the right pitch and gather, and run true. All skains and skein boxes are paired. The running gear is assembled by skilled workmen whose wages depend as much on the quality as on the quantity of the work they turn out. Consequently, IHC wagons are practically all of the same high standard of quality throughout.

Weber and Columbus wagons have wood gears; New Bettendorf and Steel King have steel gears. To learn which IHC wagon is best suited to your work and conditions, write our nearest office for interesting catalogues.
